

## TOKENSALE OVERVIEW

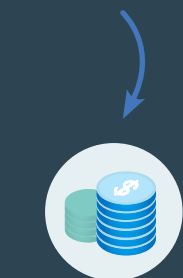

**Preparation.** To be perfectly prepared for EVN token sale you need to prepare the following documents and obligatories:

- Scan of passport, ID card or driver's license (country-dependent)
- US Investors: additional documents needed ([envion.org/verifyinvestor](http://envion.org/verifyinvestor))
- Ether (guide: [envion.org/how2eth](http://envion.org/how2eth)), alternatively Bitcoin or credit card
- ERC-20 wallet to receive EVN tokens, e.g. MetaMask ([envion.org/how2mema](http://envion.org/how2mema)) or MyEtherWallet ([envion.org/how2mew](http://envion.org/how2mew))

**Registration.** In order to register with envion, we only need a little bit of information from your side. This includes:

- A valid email address
- Your full name

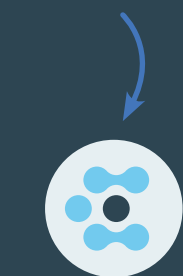

**Payment Setup.** We offer EVN tokens via our website [envion.org](http://envion.org) ONLY. There are three ways to complete your purchase. However, we recommend to pay with Ether (ETH):

- Ether payment (highly recommended, no fees)
- Bitcoin payment (additional fees)
- Payment by credit card (additional fees, token locking period for several months – you could buy ETH ([envion.org/how2eth](http://envion.org/how2eth)) with credit card first to avoid locking)

**Verification.** For the verification of your account, we need to verify your identity by means of a suitable document (ID card, passport, driver's license).

*US residents only: additional documents are needed ([envion.org/verifyinvestor](http://envion.org/verifyinvestor))*

**Transaction.** After your payment is verified, we will send you the purchased EVN tokens generally within the next few hours, latest until January 15th, 2018.
